DH DIY CHALLENGE

¡Hágalo usted mismo!

Los talleres de *Elaboración de proyectos de Humanidades Digitales: ¡hágalo usted mism@!*, fueron realizados por la Profa. Mila Aponte-González, Académica Residente (*DH Fellow*) 2022-2023, como parte de la serie de conferencias y talleres introductorios relacionados a la creación de proyectos de Humanidades Digitales del Proyecto UPR Caribe Digital.

El ciclo de talleres cubrió 5 herramientas digitales de acceso abierto: *TimelineJS*, *StoryMapJS*, *Omeka*, *Onodo* y *Twine*. Los talleres se articularon como una serie de experiencias introductorias, tipo **prácticum**, sobre elaboración de proyectos de Humanidades Digitales. Para esto, se le presentó a l@s participantes una serie de "retos", titulados *DH DIY Challenges*.

Para más información sobre estos talleres y otros recursos sobre Humanidades Digitales, les invitamos a visitar la sección de Laboratorio del sitio web de UPR Caribe Digital.

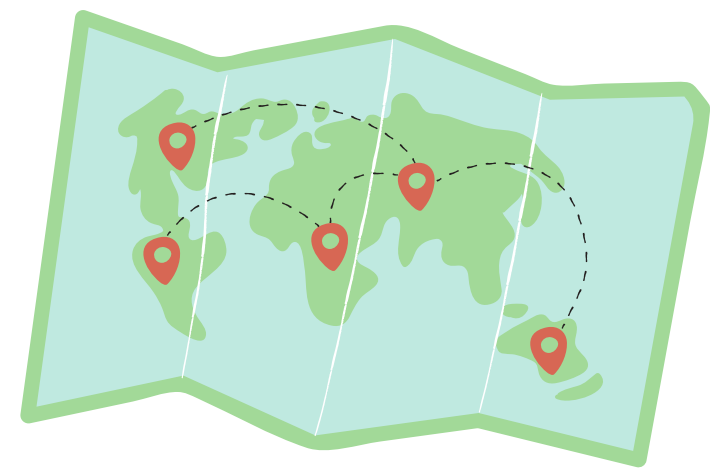

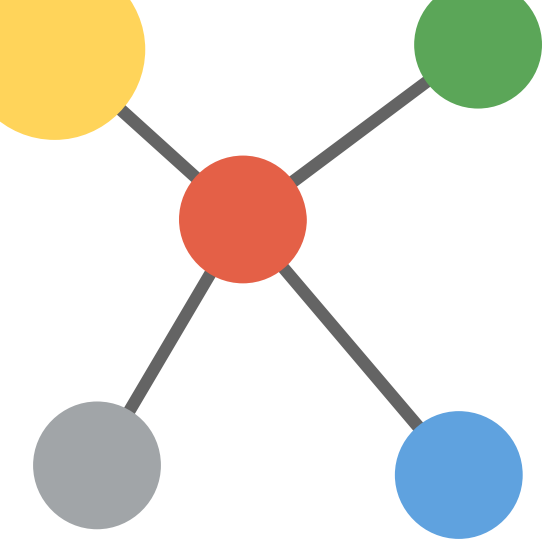

¿Qué es Twine?

Herramienta que permite desarrollar una narrativa no lineal e interactiva, a través de hipervínculos o enlaces que generan caminos de lectura ramificados. Narradas en segunda persona, el lector se convierte en protagonista, y elige, por medio de la selección de enlaces, las diversas rutas de la historia, con resultados diversos.

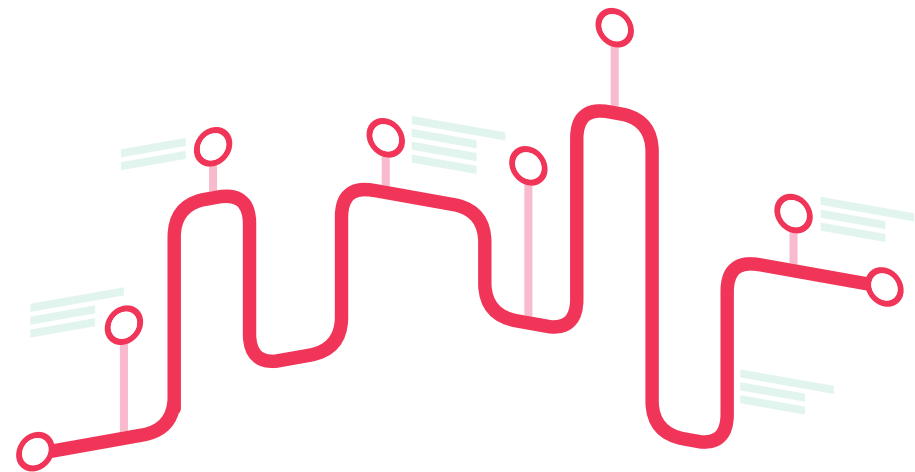

¿Cómo se realizó el *DH DIY Challenge*?

Para este reto, se le propuso a l@s participantes una serie de flujogramas o "árboles de decisiones" de los libros *Inconsequential Dilemmas* (2013) y *Consequential Dilemmas* (2016)*, a modo de inspiración para generar sus propias narrativas no lineales.

* Creados, publicados y distribuidos por la editorial Knock Knock.

iEjemplos!

Is this article about you.

indeed

no, i just told you it was about funny cats

DH DIY CHALLENGE!

❖ Antes de lanzarte a elaborar tu narrativa interactiva no lineal en Twine, planifica tu proyecto considerando las siguientes preguntas:

- ✓ ¿Cuáles son los objetivos de tu proyecto?
- ✓ ¿Quiénes serían tu público meta?
- ✓ ¿Qué temas deseas explorar en tu narrativa?
- ✓ ¿En qué travesía quieres llevar a tu audiencia?
- ✓ ¿Qué tipo de participación y qué interacciones deseas promover en tus usuari@s?

❖ Una vez tengas más claro tu proyecto, es altamente recomendable hacer un *wireframe* de tu narrativa.

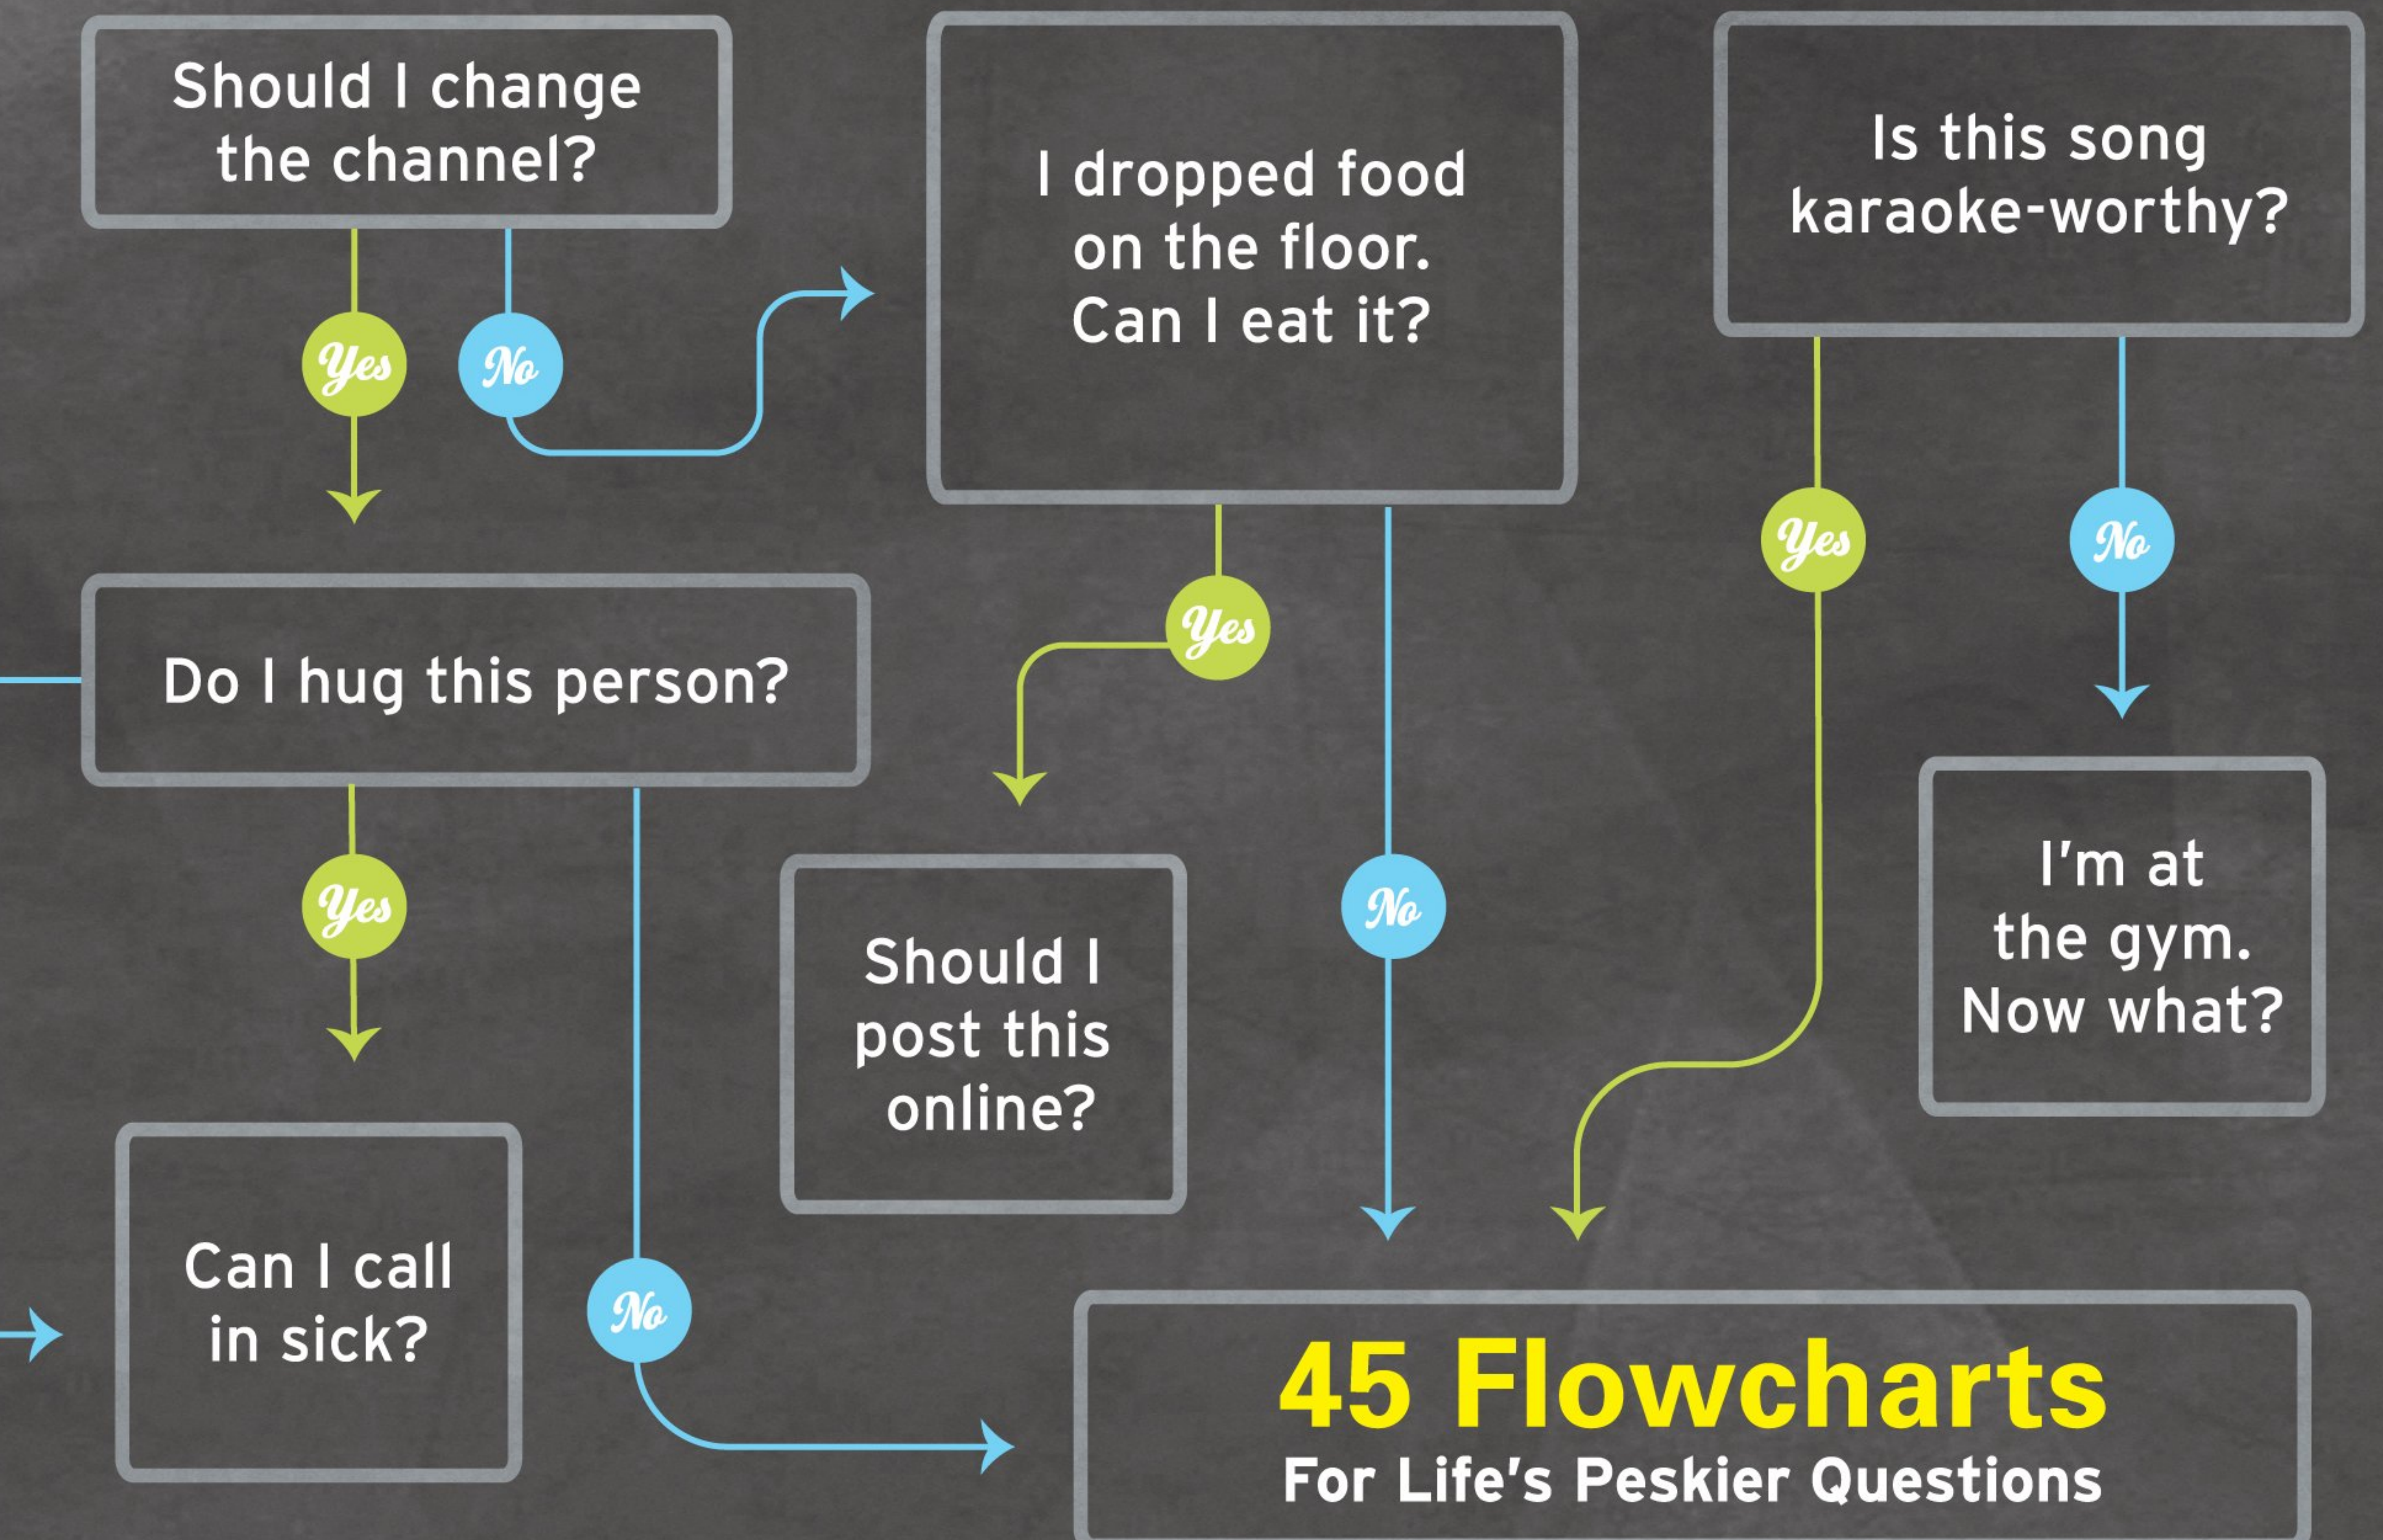

- *Un wireframe es una representación esquemática bidimensional que ofrece una perspectiva basada solamente en la arquitectura del contenido de un proyecto digital que implique interacción (persona-máquina), obviando el diseño y evitando elementos accidentales que puedan distraer en esta fase de planificación (colores, tipografías, multimedia, etc.).*
